***ELECTION/RESTRICTION***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-33 and 45, drawn to methods of "discriminating among a plurality of nucleic acid targets," classified in at least, for example, class 435, subclass 6.
  - II. Claims 34-44, drawn to methods of performing an enzymatic reaction, classified in at least, for example, class 435, subclasses 91.2 and 91.52.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are drawn to patentably distinct methods having different objectives and requiring the use of different reagents in different process steps. Invention I requires steps of comparing the extent of duplex formation among multiple nucleic acid hybrids to achieve the objective of discriminating "among a plurality of nucleic acid targets," while Invention II requires the use of enzymes in performance of enzymatic reactions on a hybridized primer. Accordingly, Inventions I and II are patentably distinct from one another.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter, and because Invention I-II require different searches that are not co-extensive, examination of these distinct inventions would pose a serious burden on the examiner and therefore restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
